Memorandum of Agreement (MOA)

**Islamic Azad University Elites and Young Researchers Club and Iran
Nanotechnology Innovation Council (INIC)**

Concerning the importance and value of Nanotechnology and its role in Iran economy and the reliance of Iranian scientific comprehensive plan and other top-priority documents, in order for developing society's culture and practical usage of Nanotechnology, education and upgrading the level of professional merits of researchers and elites of society, this memorandum of agreement was made by and between Islamic Azad University Elites and Young Researchers Club represented by Dr. Farbod Razazi, as the academic deputy of Islamic Azad University Elites and Young Researchers Club residing in Shahid Barati Al., Ferdowsi Sq., Enghelab Sq., Tehran, Tel.:+۹۸۲۱۶۶۷۱۸۷۰۳ hereinafter called as "Club" on the one hand and Iran Nanotechnology Innovation Council (INIC), represented by Dr. Emad Ahmadvand as the Director of promotion and culture development of Nanotechnology Innovation Council, academic deputy of the presidency residing in No.۹, Motevallian Blvd., Elahi St., Satarkhan St., Tehran, hereinafter called as "Council" on the other hand with the following terms and conditions:

Article No. ۱: Scope and Subject

In line with the aims of the ۱۰-year Nanotechnology development document in Iran and the aims of Islamic Azad University Elites and Young Researchers Club, the aims of the present memorandum of agreement shall be described as follows:

- ۱-۱ enhancement of professional merit of Iran researchers and elites in the field of nanotechnology
- ۱-۲ creation and development of occupations and professions related to nanotechnology for society's researchers and elites
- ۱-۳ providing the needed basis for domestic and international markets upon education and empowerment of society's researchers and elites in the field of nanotechnology
- ۱-۴ conduction of research proposals in line with the capabilities of society's researchers and elites in the field of nanotechnology
- ۱-۵ design of national and international competitions with the up-to-date titles for society's researchers and elites in the field of nanotechnology

Article No. ۲: Obligations of Council:

- ۲-۱ participating in recognition of occupations, compiling and providing occupational and educational standards in the field of nanotechnology
- ۲-۲ cooperation with the submission of short-term educational course on nanotechnology in the club
- ۲-۳ cooperation with the submission of In-service educational courses of nanotechnology in club
- ۲-۴ introduction of experts in knowledge-based and technology-based companies in the field of nanotechnology
- ۲-۵ facilitation of the usage of national and international educational capacity to instructors and experts of the club in the field of nanotechnology
- ۲-۶ providing the needed basis for attendance of club in national and international exhibitions and technology of nanotechnology markets

٢-٧ cooperation with commissioning educational workshops of org. in the field of nanotechnology

٢-٨ recruitment of instructors and needed resources for holding academic and specialized meetings

٢-٩ providing support for entrepreneur proposals submitted on behalf of researchers, elites, and experts of the club in the field of nanotechnology

٢-١٠ providing aid in the supply of infrastructure's financial resources and needed workshops

٢-١١ introduction of the club to research and education institutes active in the field of nanotechnology for recognizing research finding with the capability of the launching product

٢-١٢ providing support for short-term educational courses for empowering companies, technology developers and students engaged in the field of nanotechnology

٢-١٣ providing support and facilitating the appropriate condition for members of the club for completing the academic courses (including internship, apprenticeship, etc.) and industrial educational courses on behalf of the council

٢-١٤ using club as the authority in charge of introducing needed teams in the field of nanotechnology

Note: Other obligations related to the council, if needed, shall be mentioned in the annexed contracts.

Article No.٣: Obligations of Club

٣-١ making plan in all Islamic Azad University Elites and Young Researchers Clubs for running educational courses in the field of nanotechnology

٣-٢ reviewing and confirming educational standards provided by the council

٣-٣ taking benefits of introduced experts and sophisticates on behalf of the council in running needed educations and examinations for researchers and elites

٣-٤ facilitating the possibility for the exploitation of place, equipment of club in Islamic Azad University branches for running general and specialized educational courses in the field of nanotechnology upon concluding the contract.

٣-٥ facilitating the possibility for the exploitation of place, equipment of club in Islamic Azad University branches for running specialized meetings and seminars upon concluding the contract.

٣-٦ submitting educational permits to companies and institutes introduced on behalf of the council in comply with the club's rules and regulations

٣-٧ introducing academic associations which requested to join to council

٣-٨ public information of council plans to members of club and academic association of club

Note: Other obligations related to the council, if needed, shall be mentioned in the annexed contracts.

Article No. ٤: Joint Obligations

٤-١ futurology and pre-feasibility study for occupation and professions practiced in the field of nanotechnology

٤-٢ participating in running educational courses on the empowerment of human resources of nanotechnology

٤-٣ participating in running electronic courses by using educational modern technologies

٤-٤ supporting Nano experts by the approach of sustainable entrepreneurship

٤-٥ exploiting information banks, libraries and information resources in comply with the parties' rules and regulations

٤-٦ participating in idea commercialization in the field of nanotechnology

٤-٧ running joint task force for following up the contents of the memorandum of agreement

٤-٨ using the capacity of institutions, centers, and international organizations

ξ-9 facilitating the membership process in club based on a rank achieved in competitions and plans held by the council

ξ-10 facilitating the participation of introduced members on behalf of the club in the council's events.

The present memorandum of agreement shall be legally valid for five years and shall be extendable upon parties' mutual consent

Article No.6: Dispute Settlement Commission

Any dispute which may arise during the execution of the memorandum of agreement and delay of affairs on behalf of the parties, dispute settlement commission shall hold the commission made up of fully-authorized representatives of club and council so that they shall make an appropriate decision in connection with the subject matter(s) of dispute.

Article No.7: Other Conditions
